

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR FORCE LIFE CYCLE MANAGEMENT CENTER
WRIGHT-PATTERSON AIR FORCE BASE OHIO

28 June 2024

MEMORANDUM FOR Mr. Chris Howard
Opti-Blast
4032 N. Jackson St.
Jacksonville, Texas 75766

FROM: AFLCMC/EZPT-CPCO
325 Richard Ray Blvd, Bldg 165, Room 13
Robins AFB, GA 31098

SUBJECT: Extension of Approval of Opti-Blast Type V Plastic Media

1. The Air Force Corrosion Prevention and Control Office has the responsibility for maintaining the list of qualified suppliers of media conforming to MIL-DTL-85891B under a joint Memorandum of Agreement with all federal organizations. First article testing was completed in April 2020, and results indicated a necessity to update MIL-DTL-85891B requirements.
2. In the interim, this letter is provided to Opti-Blast to indicate that their Type V engineered media is **approved** for use until **June 2025** unless removed earlier for non-conformance. At that time, results for completed MIL-DTL-85891B qualification testing will be made available to Opti-Blast and the US Government for determination of conformance or failure to the updated MIL-DTL-85891B specification. Conformance will allow addition to the MIL-DTL-85891B Qualified Products Database (QPD). Failure to qualify will be sufficient justification for removal from T.O. 1-1-8 and/or the MIL-DTL-85891B QPD. Our office has forwarded your extension to the MIL-P-85891A list of qualified suppliers by email to the General Services Administration with the same date as your letter.
3. Should you have questions or require additional information, please contact our POC Jarquees Williams, AFLCMC/EZPT-CPCO, (912) 678-5968, email jarquees.williams@us.af.mil.
